Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 19,20, and 23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 10-14-05.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 17, 18, 21, and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Tovey US PN 5,333,624.

Art Unit: 3738

Tovey discloses in figures 1, 6, 7, and 9-12 a system for inserting a sling comprising a rectangular sling 9, sling anchors 10 having a cylindrical body 14 with a bore 15 therethrough, suture 19, and inserter 20. Although the sling anchors are not described to anchor the sling to internal soft tissues, ligaments, or fascia, the structure and shape of the anchors meet the claimed structural limitations and are capable of anchoring the sling to internal soft tissues, ligaments, or fascia. Note the limitations of claim 17 regarding requiring an incision or not are intended use recitations that do not structurally limit the device.

4. Claims 17, 18, 21, and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Gellman et al. US PN 6,042,534.

Gellman et al. discloses in figures 2c and 14 a system for inserting a sling comprising a rectangular sling 10, suture 64, sling anchors 62 having a cylindrical body with a bore therethrough, and inserter. The inserter and anchors are described at lines 20-43 of col. 16. Although the sling anchors are not described to anchor the sling to internal soft tissues, ligaments, or fascia, the structure and shape of the anchors meet the claimed structural limitations and are capable of anchoring the sling to internal soft tissues, ligaments, or fascia. Note the limitations of claim 17 regarding requiring an incision or not are intended use recitations that do not structurally limit the device.

Response to Arguments

5. Applicant's arguments filed 4-13-06 have been fully considered but they are not persuasive. Applicant contends both Tovey and Gellman do not disclose anchoring the sling to soft tissue. Ligament, or fascia and therefore do not anticipate the claims. Applicant only argues the differing intended use, or function, of the claimed device. Examiner disagrees because the claims are not structurally distinguished from Tovey and Gellman. MPEP 2114 provides explanation as to the interpretation of functional claim language.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
